## PROFILE

Front-End Team Lead skilled in React.js, Next.js, and TypeScript. Focused on building scalable, maintainable, and high-quality web applications.

## EMPLOYMENT HISTORY

### Front-end Lead at iToll, Tehran

Jun 2025 – Now

- **itoll.com**: I'm working at iToll as the Front-end Lead, leading a dedicated team in building and optimizing web applications for Iran's leading platform in vehicle-related services. Our focus is on delivering secure, user-friendly experiences for toll payments, car insurance, and smart transportation solutions across the country.
- Defining technical guidelines and driving major initiatives such as the migration from Nuxt.js to Next.js, working closely with backend and product teams to align goals and ensure seamless delivery.

### Front-end Lead at Bank Shahr(City Development & innovation), Tehran

August 2024 – July 2025

- **shahrdi.com**: As Front-end Lead at Shahr Bank, I guided a professional team implementing and rewriting the bank's internet banking platform.
- Led the front-end of a secure, multilingual platform built with React.js, Next.js and a Micro Frontend architecture: designing scalable solutions, mentoring the team, improving performance and maintaining high code quality.
- Worked closely with product, design and backend teams.

### Senior Front-end Developer at Samina Soft, Tehran

March 2024 – August 2024

- **app.saminasoft.ir**: Samina Soft is a financial company active in producing financial and accounting software.
- I worked at this company as a Senior Front-end Developer, focusing on front-end development with React and Typescript

### Senior Front-end Developer at Dade Kavan Pishro (DML), Tehran

November 2022 – July 2023

- Contributed to the development of a blockchain-based Rock-Paper-Scissors game
- Played a key role in a project combating money laundering and tax evasion for Parsian Bank

### Senior Full-stack Developer at Tisfoon Safar Iranian, Tehran

July 2022 – July 2023

- Solely designed and developed tourino.ir website and admin panel
- Front-end and back-end tasks handled proficiently using Next.js, Material UI, and Redux

### Senior Front-end Developer at Rhythmitica Co., Toronto

April 2020 – July 2022

- Programmed front-end of Rhythmitica website, admin panel, and student portal
- Source code available on GitHub and GitLab repositories
- Used Next.js framework and TypeScript

### Mid-level Front-end Developer at Chista Co., Tehran

August 2018 – October 2019

- **Chista.ir**: Project execution using React JS and Material UI
- Implementation of realtime technologies for text chat using Socket
- Optimization and SEO of the project with Next.js

## Founder & Technical Manager at Webtab Co., Tehran

March 2017 – August 2018

- Co-founder and manager, together with two partners
- Key role in successful project delivery
- Led skilled development team
- [almaskarimkhan.ir](http://almaskarimkhan.ir): one of the projects that done there

## Full-stack Developer at Nasirzadeh branding institute, Tehran

March 2015 – March 2017

- [nasirzadeh.com](http://nasirzadeh.com): Designed and developed Nasirzadeh Institute website
- [arastowel.com](http://arastowel.com): Designed and developed Aras Towel website
- Executed SEO tasks for enhanced website performance

## PROJECTS

- **Arastowel** · 2026  
[arastowel.com](http://arastowel.com): Full rebuild of a towel e-commerce store: Next.js 16 storefront and admin panel on a Laravel API, with AI try-on, instalment payments, an AI-assisted blog and a lead-gen quiz.
